VICTA *CODE*

INSTANT **PARTS**

Victacode is the key to the easy identification of Victa mowers which have been produced over the years.

Each model manufactured has a label situated on the top of the air filter element cartridge which is either a "V" series or model number. Whether the mower is marketed under the name of Victa, Pace, Sunbeam or units manufactured under an exclusive House Brand arrangement, the model identification programme will always apply.

Once you have obtained the mower model number refer to the Index for the correct page. You will then be able to supply the Blades, Bolts, Nuts, Spark Plugs and a number of other fast moving parts suitable for each particular model.

Please Note: The identification number has been placed on each page so that it is easier for you to read the details.

Victacode has real benefits to you in quick selection of the correct parts for your customers.
